Advantages of Medical Training Programs

The potential to perform rewarding work and earn an income in a growing field aren't the only benefits of medical training programs.

1

CROSS-TRAINING

Patient communication, anatomy, medical terminology, and updating and managing health records are functions that can be used across many medical occupations.

JOB DIVERSITY

2

There are more than 35 various healthcare occupations.

3

STATE REGULATIONS

Quality training programs prepare students to meet state training and licensing requirements. Program administrators know which state regulations are applicable to certain medical training programs and specific healthcare occupations.

CLINICAL INSTRUCTION

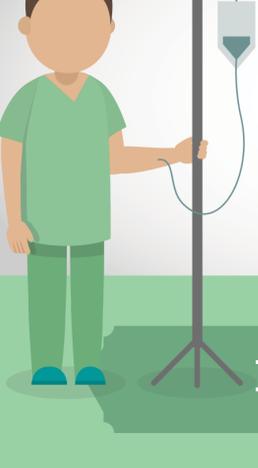

4

During training, students can get hands-on experience by taking vital signs like blood pressure and pulse rate.

5

EXTERNSHIPS

Through externships, clinical instruction that occurs in a school setting is reinforced allows students the opportunity to apply what they have learned while benefitting from professional exposure in their field.

FLEXIBILITY

6

Medical career training takes time. Making time to pursue career training in the medical field can seem intimidating, especially if someone has family or work commitments outside of school.

7

WORK ENVIRONMENT

Graduates of medical training programs could potentially work at hospitals, clinics, private physician offices, or other healthcare facilities.

CAREER SERVICES

8

Although job placement is not guaranteed by any school, there are medical training programs that offer career services assistance.

9

SKILLED INSTRUCTORS

Instructors possess skills and experience in the specific field or subject that they teach. It is this specialized training and experience that makes it possible for instructors to answer students' questions and offer insights regarding industry and occupation changes and trends.

DORSEY SCHOOLS' MEDICAL TRAINING PROGRAMS

Instructors in the Medical Training programs at Dorsey Schools are ready to connect with you and answer your questions as you begin your journey towards a new career. Dorsey Schools Medical Training programs are designed to prepare adults to work in America's healthcare system.

dorsey.edu

Instructors at Dorsey Schools Medical Training programs are ready to connect with you and answer your questions as you begin your journey towards a new career.
