

DORSEY SCHOOLS OUTCOME DISCLOSURES

As a school accredited by the Council on Occupational Education (COE) Dorsey Schools hereby certifies that the completion, placement, and licensure (where applicable) information provided below was submitted to COE on December 14, 2018 as part of its annual report and is the most recent data available. All information provided is for students graduating or completing program requirements between the reporting period of July 1, 2017 and June 30, 2018. Dorsey Schools uses COE's completion, placement and licensure definitions and formulas to calculate all rates.

Completion rates are the percentage of students who have demonstrated the competencies required for a program and have been awarded the appropriate credential (graduate completer) or have acquired sufficient competencies through a program to become employed in the field of education pursued or a related field as evidenced by such employment (non-graduate completer) within the reporting period.

Placement rates are the percentage of completers of a program who (1) are employed in the field of education pursued or in a related field, or (2) have received the appropriate credential and entered the military or continued his/her education within in reporting period. Valid employment in the field or a related field includes placement in a permanent full- or part time position with an employer or employment agency, or self-employment in the field of education or a related field. Internships and externships, either paid or unpaid, do not qualify as placements.

Licensure rates are the percentage of students that have successfully attempted and passed a required test (either by the state or federally) prior to obtaining employment after graduation of some programs.

COE OUTCOMES FOR 07/01/2017-06/30/2018

Dorsey School of Beauty, Taylor, main campus, is accredited by NACCAS (National Accrediting Commission for Career Arts & Sciences). The information provided below for Dorsey School of Beauty- Taylor was submitted to NACCAS on November 30, 2018 as part of its annual report and is the most recent graduation, placement, and licensure data available. All information provided is for students with a contracted graduation date between the period of January 1, 2017 and December 31, 2017.

Graduation Rate

51.22%

Based on all students scheduled to graduate from their program in 2017. Of those students scheduled to graduate in 2017, the percentage that actually graduated before November 30, 2018.

Licensure Rate

61.90%

Of the 2017 graduates included above who sat for all parts of their required State of Michigan licensure exam prior to November 30, 2018, the percentage that passed all required parts of the exam before November 30, 2018.

Job Placement Rate

84.34%

Of the 2017 graduates included above who are eligible for job placement, the percentage who were placed prior to November 30, 2018.

A graduate who is or has been employed in a field for which their training prepared them (i.e. in a position within the beauty and wellness industry that directly relates to their field of training) after graduation and prior to November 30, 2018, is considered placed. A graduate who obtains a temporary position (i.e. position where there is an expectation prior to the graduate's hire that the employment relationship between the employer and graduate will not last more than one month) is not considered placed.
