

Cosmetology Instructor

What is the total cost of the Cosmetology Instructor program?

Tuition and fees for a student to complete the 500 hour Cosmetology Instructor program within the normal time frame totals \$4,995, which includes the cost of books and supplies. Student hours and contact time will be individually scheduled and contracted by each student. For example, 45 weeks of contact time (if a student attends 12 hours per week) or 17 weeks of contact time (if a student attends 35 hours per week). Total tuition may change based on a student's decision to change programs, extend training, withdraw, or interrupt training for any reason. Dorsey College will pay the cost one time for graduates of this program to challenge the state licensing exam, contingent upon the graduate meeting Dorsey College's exam preparation requirements. Dorsey College has determined that its Cosmetology Instructor program curriculum is sufficient to fulfill educational requirements for licensure in the State of Michigan only. No educational determinations have been made for any other state, district or US territory in regards to licensure requirements.
